

## KATIE OLSON

Katie Olson has accepted another position and will be leaving AIPL as of December 22. Katie was a post-doc funded through NAAB but located at AIPL. During her 2.5 years working with AIPL, she (co) authored 7 journal articles and worked on a variety of projects including multibreed genomic evaluations, breed determination from genomics, genomic validation, and across country genomic evaluations. Katie's enthusiasm and excitement has made her a pleasure to work with. Her work at AIPL has been extremely beneficial moving the US genomic effort forward, and we wish her the best as she moves into her new assignment.
